## Week 3: Pebbles & Swirls

Now that you have watched the video, you are ready for your weekly challenge!

### Your Challenge:

#### Fill in an area of your quilt with pebbles and swirls.

First quilt along the draw lines defining the areas. You could even echo them a couple of times if you'd like. Then, fill in the space with pebbles combined with the concentric swirl design.

Pebbles are a great design to really highlight an area. Quilt them around something you want to show off!

.COM

### Remember:

When it comes to quilting the pebbles design, remember the following:

- \*Quilt the pebbles in opposite directions
- \*Use traveling to transition to the next pebble
- \*Fill the whole area in as consistently as possible.

### Feeling Ambitious?

Try quilting pebbles in the following ways:

- **In different sizes.**  
Changing the size is an easy way to make this design quilt quicker.
- **Inside one of the dots.**
- **Combined with swirls.**  
You could even make it look like you are transitioning from one design to another.
- **Try different variations in the border sections.**
