

## Allover Designs

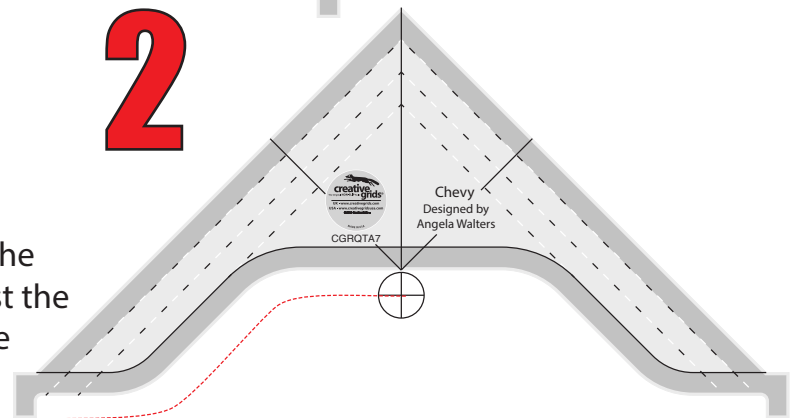

Quilt along the curved side of the ruler, stopping when you get to the middle registration line.

1

Reposition the ruler so that the foot of the machine is against the needle stop. Then quilt to the middle line again.

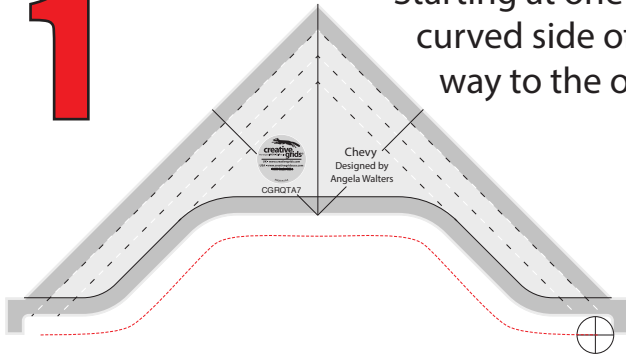

2

3

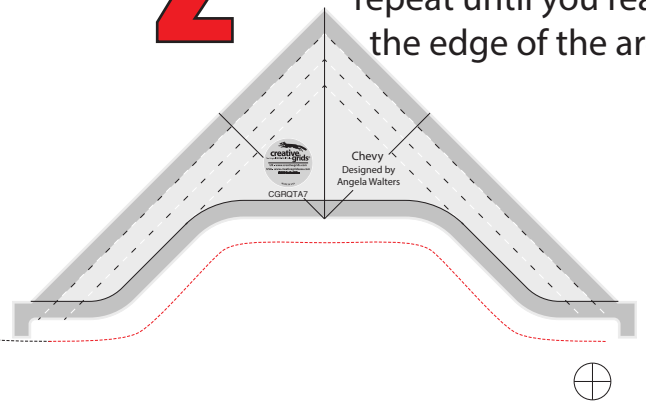

Once you reach the end of the area, travel along the edge of the block until you are 1/4" - 1/2" away from the previously quilted line. Reposition the ruler, then quilt until you reach the needle stop. Repeat the steps above until the whole area is filled in.

1

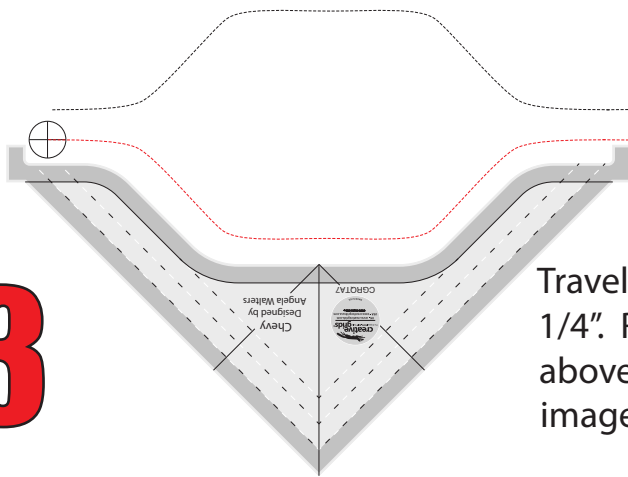

Starting at one end, quilt along the curved side of the ruler all the way to the other end.

2

Reposition the ruler and repeat until you reach the edge of the area.

3

Travel along the edge of the area about 1/4". Rotate ruler and repeat the steps above, quilting a line that's a mirror image of the first one.

Fill in the whole area, alternating the ruler orientation. For a different look, you can echo each row before moving onto the next one.
